Prepare for Your Appointments

Fill in the spaces below with your appointment information and questions. If you need a little help thinking of questions to ask, use the Ideas for Getting Started. Take this to your appointment, and note your health care provider’s responses. Planning ahead for your conversation may help you get the most out of your visit. Remember to make copies to use for future appointments.

IDEAS FOR GETTING STARTED

Consider the following as you fill out this sheet:

- How do you feel about staying on track with treatment?
- How do you manage any symptoms or side effects that you may experience?
- How do you feel you are coping with this disease in your daily life?

QUESTIONS TO ASK

ANSWERS AND NOTES

Use the Conversation Guide from the My Trackers pocket of the You Are the Center of Your Care brochure for ideas to help you start talking with your health care team. The guide presents topics, ways to bring up your questions, and information you may want to share. After you look at the Conversation Guide, use this Prepare for Your Appointments sheet to personalize your plan with specific information and questions.
