

Manage Your Day

As an active member of your health care team, keeping track of any symptoms that you may experience is important to make the most of your treatment with VOTRIENT® (pazopanib) tablets. It's also important to revisit the strategies you and your health care provider used to manage those symptoms and consider what worked for you and what didn't. Fill out the spaces below, and share this with your health care provider so you have ideas that may help you manage any potential symptoms you experience. It is important to discuss any side effects you may experience and how to manage them with your health care provider. *Remember to make copies to use for future appointments.*

SYMPTOM	WHEN DID YOU FEEL THIS?	WHEN DID YOU TAKE VOTRIENT?
<i>When I feel this symptom</i> A LITTLE		<i>When I feel this symptom</i> A LOT
What has helped		What has helped
_____		_____
What has not helped		What has not helped
_____		_____
Looking ahead		Looking ahead
_____		_____
_____		_____

Use **Your Weekly Symptom Tracker** from the My Trackers pocket of the **You Are the Center of Your Care** brochure to keep a weekly list of any symptoms you may experience and the strategies you and your health care provider used to manage them. Revisit your tracker to consider what worked for you and what didn't. Then fill out this **Manage Your Day** sheet so you have a list of strategies that have worked and ideas to try moving forward.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch, or call 1-800-FDA-1088.
